Master of engineering
Kharkiv National University of Construction and Architecture, faculty of Sanitary Engineering, specialty - heat and gas supply and ventilation 2013
2008 - 2013

Summary

I have 1+ years of commercial experience in IT as a front-end developer.

My experience includes building responsive interfaces from scratch, patching other developers code, and optimizing the performance of web applications.

I'm always quick to learn new technology and write clean code, always looking for optimization methods.

I'm disabled people

Experience

Pet project
I am in charge of backend:

- development some service with nest.js
- writing functions for the interactivity of the application
- working with docker
